# HARRISON'S LETTER.

THE GENERAL HAS COMPLETED HIS LETTER OF ACCEPTANCE.

The Letter Said to be Short, But Clear, Concise, Unequivocal and to the Point.

President Cleveland, Aided by Congressman Randall, Has at last Drafted His Acceptance.

It Will be Forthcoming in Two Weeks-The President Will Take Water

NEW YORK, Sept. 6 .- The Mail and Ex press of this evening says that General Harrison's letter of acceptance is finished and will be given to the public in a few days. President Cleveland has also drafted his letter and it will be printed in less than two weeks. It is said that President Cleveland received considerable aid from Mr. Randall.

Ex-Governor Foster, of Ohio, fresh from his outing with General Harrison at Mid-dle Bass island, arrived at the Fifth Avenue hotel today. He smiled when a re-porter asked him if he had a draft of General Harrison's letter of acceptance in his pocket, and answered that he had denied that absurd and unfounded story

"But General Harrison has aiready written his letter of acceptance, and he Bass Island writing his letter of acceptance. Up to that time I don't think he had written anything, but his delay was not caused from a desire to wait until President Cleveland had published his letter of acceptance. I can not say when it will be given to the public, but my impression is that it will be given out in a very short time."

"Will the letter be very long?"

"No, I don't think it will. You see, General Harrison has the splendid gift of congral Harrison has the splendid gift of con-

"No, I don't think it will. You see, General Harrison has the splendid gift of condensation, and I think the letter will be rather short, but clear, concise, unequivocal and to the point."
"Did you hear him say whether he thought he could carry Indiana?"
"No, but my impression is that he has no doubt about it. We never talked on the subject because, as a matter of course, Indiana will go Republican. The general is not a nervous excitable man, but has a Indiana will go Republican. The general is not a nervous, excitable man, but has a calm exterior and a philosophical way of looking at things. If he were defeated tomorrow I don't think it would make any change in his demeanor because his mental equipose is so great. The people of the country will find that he will make an excellent president and one that the republic will be proud of. I think the Democrats have made a mistake in bringing out Mr. will be proud of. I think the Democrats have made a mistake in bringing out Mr. Thurman, because he is a poor speechmaker compared to Carlisle and Hurd. There is one thing the judge can scarcely be forgiven for: When in 1861 he and the Democrats assembled in convention in Ohio declared that President Lincoln should not march his troops through the state unless he marched them across the bodies of 200,000 Democrats. His arguments on the tariff question are absurd. He goes about telling over and over again the story of a suit of

tion are absurd. He goes about telling over and over again the story of a suit of clothes, that the duty on the cloth caused ham to pay \$6 or \$7 more for it because the tartif raised the price of articles manufactured in America. Of course he is wrong. He probably pays 60 cents apiece for his bandanas, and the duty on them is that much, if not more. Why, the duty on imported salt is actually higher than we sell salt made here. He will not do the Republicans any harm by speaking in New York."

bandanas, and the duty on them is that much, if not more. Why, the duty on imported salt is actually higher than we sell salt made here. He will not do the Republicans any harm by speaking in New York."

One of the strongest and most important pieces of news was related to a reporter to day at the Fifth Avenue hotel by ex-congressman Burleigh, of New York Mr. Burleigh said that he learned from a very reliable source, one that he did not doubt, that Congressman Samuel Randall was now busy assisting President Cleveland to draft his letter of acceptance.

Mr. Burleigh said: "I have such confidence in my authority I am perfectly willing for you to quote me, and in the most emphatic manner. My information is that the president has at last consented to hedge and mollify if possible his strong advocacy of the Mills bill, which the country generally adopts as a free trade measure. He wishes to pursue a middle course and not alienate the protection Democrats, such as kinndall Smith. Weed and scores. ure. He wishes to pursue a middle course and not alienate the protection Democrats, such as Kandall, Smith, Weed and scores of others. For this reason he invited Mr. Kandall to assist him to draft his letter of acceptance. The letter, when published, will not please the extreme free traders like Frank Hurd, Speaker Carlyle and Congressman Scott, but will, so I am in-formed be a modification of his tariff mes-sare. I have no reason to believe that i sage. I have no reason to believe that I have been deceived in the authenticity of my information, and accept it as true."

The water works company had given notice that the water would be shut off from 11 p. m. to 3 a. m., to enable them to make a six inch connection on Fourth street. This occasioned a loss of time in getting water, and the fire spread very rapidly. The fire laddles also report that three of their nozzles had been plugged, and the pull down rope on the hook and ladder truck cut and taken away. These reports con-firm many in the belief that the fire was

trary to her parent's wishes; that she had given him \$500; that they had two children the oldest? years of age, and that for the past three months he had contributed nothing toward her support, and had finally gone away, leaving three months' rent unpaid and grocery bills for the same time and not a penny by which to remember him.

The next day a woman, accompanied by her son, came to the office, and they also talked about Fizer. They lived in the vicinity of the Baltimoro & Ohio depot, and the woman said that Paul Fizer, as she called him, was engaged to be married to her daughter. They were considerably astonished and distressed to learn that Fizer was not only a married man, but that he was a negro. They had thought he was a Spaniard on account of his light color and straight hair, for that was what he had told them. It is thought that tho knowledge of the inevitable discovery of his double life is the cause of his disappearance. Fizer came here several years ago from St. Louis, where he was a appointed by Secretary Schurz as a messenger in the pension office, and gradually worked his way up to his present position. He was a graduate of the Howard University Medical school. It is asserted that he leaves other hearts to mourn his departure. His resignation from the pension office has not been accepted as yet, and it is proposincendiary. NO FUSION.

All Pelitical Parties of Franklin County Decide to Go It Alone.

OTTAWA, Sept. 6 .- Polities in this county have made many strange bedfellows. The Republican party is the only one that has refused all offers to fuse with any con tingent. Since 1884 until this fall the Democratic party has made love to every ing upon the possibility of war with the United States, and suggesting that Can-ada's prime move would be to take Detroit. He has been asked for an explanation. It is believed he will be asked to resign. element that would promise to weaken or defeat the Republican forces. In 1887 there was a grand conglomeration formed of Democrats, Knights of Labor, Greenbackers, socialists and general kickers who threw down the gauntlet for a clean sweep of all the offices. The Republicans began to think that the matter of fusion began to think that the matter of fusion had better be settled and accepted the challenge. The day after the election universal, triumphant victory was found perched upon the Republican banner, and not an office lost. This year the Democratic postmaster, John B. Kessler, who is taking a very active part in politics, advocated a straight ticket. The Union Labor devotees, the Greenback remnant and third parry Prohibitionists also decided togo it alone. But the leaders of the Democrats and at least one of the Union Labor dignitaries, who boasted that he carried the rank and the of the voters in his pocket, pledged themselves to a he carried the rank and file of the voters in his pocket, pledged themselves to a fusion but two or three county offices. The bill of sale covered the offices of probate judge and county commissioner. The two conventions were called for the same day, one at 11 c'clock and the Democratic at 2. The Union Labor convention broke into two when P. P. Elder insisted that it must indorse Democracy's candidate for probate judge. At the same time the purchasing power in the Democratic convention was trying to get an adjournment. He failed, and the "speechifier" denounced in unmeasured terms the idea of battering with an ally that never had been of any use but to degrade them. SEYMOUR, Ind., Sept. 6.—The explosion of a boiler of a steam thresher occurred here been of any use but to degrade them. Their courage failed them when they came nominate a commissioner and left it to the central committee. It is understood that if the Union Labor fellows will give that if the Union Labor fellows will give the Democratic nomines for probate judge unanimous support, they will sacrifice the superintendent of instruction. That is the position of the contest in this county. No matter what shystering may be adop-ted the Republican party will come off more than conqueror next November. There is intense activity in every Republi-can precinct and tweive Republican clubs, with over 1,000 members, report regularly to be adoptaters. Local speakers are pre-paring the way for heavy gins. The out-look from a Republican standpoint is very bright indeed.
